

MAUNT®

M10000725

Fiber optic blowing machine, Microflow Smart, Fremco

Description

This automatic fiber blowing machine combines ease of use, speed, and maximum cable protection in one system. Thanks to the intuitive, step-by-step configuration on the display, both novice and experienced users can easily set up and operate the machine. With the RAPID system, the configuration can be completed entirely without tools, saving valuable time and enabling multiple installations to be carried out in a single day. In addition, the machine can be used directly from the transport case, allowing a job to start quickly. The automatic blowing mode monitors the entire installation process and protects the fiber optic cable from damage. Combined with the unique Fremco protection technology, which automatically stops the machine when resistance in the cable is detected, this ensures a safe, efficient, and reliable installation.

Brand

Fremco

General specifications

Cable diameter	0.8-8.0 mm
Duct diameter	5-22 mm
Blowing distance	2500 m
Blowing speed	Tot 80 m/min
Pushing force	0-10 kg
Recommended airflow	200-500 l/min
Max. pressure	16 bar
Voltage	100-240 V, 50-60 Hz
Power usage	Tot 250 W
Weight	21.1 kg
Sizes (LxBxH)	286x204x254 mm
