**Coaxial Cable Cleaner/Scraper for Center Conductor, CC-200 Series,
Ripley Miller**

Description

Hand tool for cleaning the center conductor of coaxial cable after stripping: removes residual dielectric and adhesive from the conductor. The CC-200 is placed on the center conductor and pulled along it with a clamping and pulling motion, scraping off the dielectric in five to six strokes without damaging the conductor. The blade is interchangeable with that of the CC-100 version (rotating cleaning motion).

Brand

Ripley Miller

Technical specifications

Cutting method	Longitudinal stripping
Blade material	Transparent acrylic

Physical specifications

Color	Yellow
Blade length	4.25" (108 mm)
Weight	2.3 oz (64 g)
