Coaxial Drop Cable Trimmer/Stripper, DDT-596/11, Ripley Miller

Description

Combination tool for preparing coaxial drop cable in a single step: in one operation, it exposes both the center conductor and the shielding (braid) to the length required for connectorization. Suitable for 59, 6, 7, 9, N48 and 11 series coaxial cable (standard, tri- and quad-shielded) without having to change the color-coded blade cassette. Fitted with a built-in brush for combing back the shielding and a built-in strip stop.

Brand

Ripley Miller

Technical specifications

Center conductor exposure length	5/16" (7.93 mm)
Outer sheath strip length	1/4" (6.35 mm)
Cutting method	Radial stripping
Cable access	At cable end
Suitable cable	59, 6, 7, 9, N48 and 11 series coax
Blade cassette	Built-in, red/black color coding
Blade life (cassette)	3,500+ preparations under normal use

Physical specifications

Material	Impact-resistant polymer
Length	3.63" (92.2 mm)
Weight	2 oz (57 g)
