**Fiber optic stripper, adjustable, 111-TAS, Ripley
Miller**

Description

This adjustable fiber optic stripper from Ripley Miller is an ergonomic combination tool for cable stripping and cutting, featuring a patented full-range adjustment mechanism. It includes a convenient swivel arm that allows you to adjust the pressure on the cable. The tool is suitable for use with cables ranging from #22 AWG to #10 AWG (0.65 to 2.6 mm). The fiber optic stripper also features soft, coated handles to reduce hand strain.

Brand

Ripley Miller
