SLT 38.75 Coaxial Cable Stripper, 11.5 mm, Ripley Miller

Description

Precision coaxial cable stripper made of anodized aluminum for two-step cable preparation: in a single operation, the center conductor is exposed and the outer sheath is stripped to length. The adjustable strip stop bar, integrated into the tool, makes the exposure and strip length adjustable for a wide range of connectors. Suitable for Slimline, F, FB and 2.2/9.3 FPE cable constructions.

Brand

Ripley Miller

Technical specifications

Center conductor exposure length	10–20 mm
Outer sheath strip length	10–25 mm
Cutting method	Radial stripping
Cable access	At cable end
Adjustable strip stop bar	Yes
Suitable cable	Eupen 7088, 7082, 7081 (corrugated); CommScope CA511J

Physical specifications

Material	Anodized aluminum
Length	8.625" (219 mm)
Weight	1 lb 13 oz (817 g)
