

MAUNT

M00000031

Mechanic pliers, half round jaws, Knipex, 200 mm

Description

Knipex mechanic pliers are suitable for finer gripping and cutting work. The jaw/tip of these pliers has a high bending resistance. In addition, this tool can withstand high torsional loads. The head is made of electric steel, which is oil-hardened and tempered. The handle of the pliers is coated with plastic, making the pliers comfortable to hold.

Brand

Knipex
