Water pump pliers, Knipex, 250mm

Brand

Knipex

Description

Knipex water pump pliers have high stability thanks to double guide. It clamps itself onto nuts and pipes so it does not slide off the workpiece. This ensures that no force is lost. The pliers have clamp protection, which promotes safe use. The pliers' favourable lever action ensures optimal force transmission. The water pump pliers have gripping surfaces with specially hardened teeth. The hardness of the teeth is approx. 61 HRC. It is made of Chrome-Vanadium electrical steel, oil-hardened and then tempered. The legs of the pliers are covered with non-slip plastic. The head is polished.

General information

Material pliers	Chrome-Vanadium electrical steel
Material handles	Non-slip plastic
Length	250 mm
Weight	319 g
Kniphardness	61 HRC
Capacity for tubes	50 mm
Capacity for nuts	46 mm
Setting positions	9
