

M00000042 Pipe cutter, Knipex

Description

This pipe cutter from Knipex is suitable for cutting plastic pipes with thin walls and rubber hoses. These pipes have a maximum outside diameter of 25 mm. The tool is not suitable for cutting cables. It has a replaceable blade, an opening spring and lock. The tool is made of sturdy plastic and reinforced with fibreglass. The blades are made of high-strength special steel hardened and tempered in oil.
