M00000051

Cleaning sticks, Sticklers, 1.25mm

Description

These cleaning sticks from Sticklers are reliable fibre sticks. Designed for cleaning 1.25mm LC/MU adapters, these cleaning sticks are green in colour. With this cleaning tool, the adapters are cleaned very cleanly and they leave no residue. The sticks are very precisely shaped to clean the entire end surface, not just the core of the adapter. One pack contains 50 sticks. These sticks work optimally in combination with Sticklers' Cleaning Fluid (product M00000190).

General information

Content	50 sticks
Brand	Microcare/Sticklers
Colour	Green

Manual

1. Hold the Sticklers cleaning solution at an angle. Press the button to fill the orange cap.
2. Moisten the cleansing stick well for a second.
3. To clean UPC: rotate the stick 10 times.
4. To clean APC: turn the stick $\frac{1}{4}$ turn 10 times.
5. To clean MPO: Swipe the end of the stick up and down.
