M00000052

Optic Grade Dust & Particle Remover

Description

This cleaner with pure drying gas is guaranteed to ensure perfectly clean fibre-optic connectors. In addition, you can also use the liquid to easily remove dust, lint and dirt from enclosures, for example. The liquid is non-flammable. The cleaner can be used in combination with wipes.

General information

Content	225 ml
Brand	Microcare/Sticklers
Number of doses	More than 650 per bottle

Identification of hazards

Contains	HFC-134a Tetrafluoroethane CAS# 811-97-
Handling and storage	2 Keep container closed when not in use.

Physical and chemical properties

Appearance	Liquid, gas aerosol
Odour	Light
pH	Not applicable
Boiling point	-26 °C
Flash point	This product is not flammable
Evaporation rate	Instant
Vapour pressure	6654 hPa @ 25 °C
Vapour density	3.6
Specific gravity (H ₂ O = 1)	1.48
Solubility	Limited water solubility

Hazard indication

H229 Pressurised container:
may burst if heated.
H280 Contains gas under
pressure: may
explode when heated.
