

MAUNT

M00000102
Duct stripper, FTS, yellow

Description

Single-step precision tool for the radial cutting of fiber optic buffer tubes during fiber optic cable installation. The hardened carbon steel blade is factory-set to the correct cutting depth, so no separate adjustment is needed, and the buffer tube is cleanly cut in one motion without damaging the fiber.

Brand

Ripley Miller

**Technical specifications**

Buffer tube diameter	1.6 - 6.0 mm
Buffer tube wall thickness	0.229 - 0.381 mm

Physical specifications

Dimensions (L x W)	95.3 x 15.9 mm
Weight	28 g
Colour	Yellow
