

MAUNT®

M00000109

Cable stripper armoured and heavy-duty cable, ACS+, Ripley Miller

Description

This cable stripper from Ripley Miller is suitable for stripping cables from 4 to 28.6 mm in diameter. The ergonomic design features a spring-loaded roller assembly with tension adjustment knob for faster cuts. The replaceable, heavy-duty steel blade can be easily adjusted in 0.1mm increments (without additional tools). The stripper's lightweight and glass-reinforced body has a curved handle designed for improved grip and leverage during stripping. This stripper is an alternative to the FIBOP stripper.
