

M00000117**Glass fibre stripper, FO103-S-250, Ripley Miller****Description**

This glass fibre stripper from Ripley Miller has one opening. This ensures that it easily and efficiently strips the primary coating back to 250 µm glass fibre. The stripping tool can be used straight out of the box and the assembler does not need to make any adjustments himself. The tool prevents scratching and kinking of the fibre-optic cable.
