

MAUNT

M00000155

Splice protector, ANT, 1.2x3.2x30mm, box of 150, Maunt

Description

The ANT splice protector is used to protect spliced optical fiber. The splice protector is slid over the spliced section of the fiber and then crimped closed with the ANT splice protector tool. In this way, the spliced section of the fiber is protected. The splice protector can be applied just a few seconds after splicing.

Brand

Maunt

Physical specifications

Splice protector material	Aluminium
Splice protector size	30 x 3 x 1.2 mm
Packaging size	205 x 20 x 60 mm
Weight	70 g
Splice protector fiber diameter	250 µm

Environmental specifications

Processing temperature range	-5°C to +45°C
Operating temperature range	-20°C to +70°C

Logistics specifications

Packaging quantity	Box of 150
Number of strips per box	5
Splice protectors per strip	30 pieces
