

MAUNT®

M00000155

Splice protectors, ANT, 1.2x3.2x30mm, box 150pcs

Description

The ANT splice protector, also known as splice protector, is used to protect welded fibre-optic cables. The ANT splice protector should be slid over the welded section of the fibre-optic cable and then it is pinched shut with the ANT splice protector tool. In this way, the welded part of the cable is protected. The Splice protector can be applied seconds after splicing.

Brand

Maunt

General information

Packaging contents	5 strips
Splice protectors per strip	30 units
Material Splice protectors	Aluminium
Splice protector format	30x3x1.2 mm
Packaging size	205x20x60 mm
Weight	70 g
Splice protector fibre diameter	250 µm
Processing temperature range	-5 °C to +45 °C
Operating temperature range	-20 °C to +70 °C
