

MAUNT®

M00000190

Cleaning fluid, Sticklers, 85ml

Description

Sticklers' fibreglass splice and connector cleaning liquid, is a non-flammable liquid that contains no alcohol or water. The liquid is specially designed for cleaning fibreglass connectors and for use while making welding joints. The product is ultra pure and dries without leaving any residue. This liquid is an excellent alternative to IPA. Thanks to the pump bottle, the liquid can be transported safely.

General information

Content	85 ml
Brand	Microcare/Sticklers
Number of doses	More than 650 per bottle

Identification of hazards

Contains	Mentyl Nonafluoroisobutyl Ether, CAS# 163702-08-7; Methyl Nonafluoroisobutyl Ether, CAS# 163702-07-6; Isopropyl Alcohol, CAS# 67-63-0
Handling and storage	Keep packaging closed when not in use.

Physical and chemical properties

Appearance	Clear, colourless liquid Slightly
odour	alcoholic
pH	No information available

Boiling point	Flash point	185 °C
		This product is not flammable
Evaporation rate	Vapour pressure	58
	Vapour density	27.6 kPa @ 25 °C
Specific gravity (H2O = 1)		7.0
Solubility	Self-ignition temperature	1.48
	VOC content	Low solubility in water. >10%
		443 °C
Hazard warning		67 g/l
		H225 Highly flammable liquid and vapour
		H319 Causes serious eye irritation
		H336 May cause drowsiness or dizziness
