Squeeky Kleen Telcom cleaner, 0.95ltr

Description

Squeeky Kleen Telcom Cleaner cleans and degreases glass fibres in just two operations, leaving no residue. This cleaner is the updated version of the HP cold cleaner. The Squeeky Kleen is gentler on the hands and after using it, no alcohol is needed to clean the fibres. In addition, it reduces chemical odours and fumes. Squeeky Kleen Telcom Cleaner helps keep welding equipment clean from contamination, ensuring better fibre alignment and welding quality.

General information

Content	0.95 litres
Brand	Polywater

Application properties

Range of temperature use	-5 °C to 50 °C
Storage	Keep containers tightly closed when not in use
Shelf life	2 years

Identification of hazards

Contains	Hydrocarbons, C-10-C131, n-alkanes, iso-alkanes, cyclic, <2% aromatics; (R)-p-menta-1,8-diene
----------	---

Handling and storage

Keep packaging closed when not in use.

Physical and chemical properties

Residue Boiling	<100 ppm
point Flash	185 °C
point	> 60°C
Evaporation rate Specific	Medium
gravity (H2O = 1)	0.79
VOC content	792 g/ltr
