

MAUNT

M00000244
Screwdriver PH1

Description

This screwdriver is made of high quality and has a curved handle. This ensures that the tool sits well in the hand and that you need little force to use the screwdriver. The handle feels soft and has a triangular shape, which corresponds to the ideal angle of rotation (120°) of the hand. The screwdriver is made of high-quality steel and has very accurately cut screw head ends, which ensure maximum precision.

Brand

White
