

M00000311**Fibre optic connector pliers, IET, Ripley Miller****Description**

These IET pliers from Ripley Miller are used to insert and remove connectors in places with a high density of connectors. In these places, it can be difficult to do this by hand. The fibre optic connector pliers IET can be used for LC, SC, MU and MTRJ connectors, and for both simplex and duplex. The pliers can be used by left- and right-handers.
