M00000769
IANOS chassis, 12-way, 1U, grey, Huber+Suhner

Description
Chassis of the IANOS system for front mounting in a 19 inch frame. The chassis accommodates IANOS modules, which can be fitted from the front or rear and inserted and removed with one hand. At the front there is a horizontally opening door that keeps the cables of duplicated (redundant) connections separated from each other. The door has space to store the labels.

Brand
Huber+Suhner
