

M00001570 **Telephone Pliers, 200mm, Knipex**

Description

The Knipex Telephone Pliers are designed for gripping and cutting individual wires in cable bundles. These pliers are equipped with a centre cutter that allows effortless cutting of soft, medium-hard and hard cables alike. Moreover, the pliers feature semi-circular jaws and an ergonomic handle, ensuring optimum ease of use. The jaws are made of forged electric steel hardened in oil, which guarantees durability and quality.
