EPFU cable, 12-way, MM, OM3, 1.60mm, yellow, Emtelle

Description

EPFU cable, also known as Blown Fiber or Fibre Unit, has been a popular choice for various FTTH installations. The blowing fibre is equipped with a specially designed polymer sheath of which is optimised for smooth blowing installations. Moreover, this cable is fully compatible with standard blowing equipment. The fibre module is user-friendly and easy to handle, making fibre stripping quick and easy.

Brand

Emtelle

Optical specifications

Type of fibre optic	MMF OM3
Fibre	OM3 multimode
Number of fibres	12
Minimum bending radius	8D

Other specifications

Fibre colour	Blue, Orange, Green, Red, Grey, Yellow, Brown, Purple, Black, Turquoise, Pink, White
Cable diameter	1.6 mm
Weight	2.2g/m
Outer sheath colour of cable	Yellow
Outer sheath material of cable	PE low friction
